DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed with an amendment on 17 July 2006 have been fully considered but they are not persuasive. The arguments are addressed at para. 5 below.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3, 7, 8 and 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by ILCISIN (US 20020044067A1).
4. ILCISIN teaches (independent claims 1, 7 and 8) an advertisement posting system, a method of calculating an advertising cost and a computer readable record medium which stores said method in said system, the system comprising: a geographic factor designation/acquisition unit (*geographical locating device 20*, para. [0021], [0022] and [0027]); an advertisement cost calculating unit (*billing information system 36*, para. [0039]), calculating the cost of the advertisement in consideration of the geographical factor (para. [0009]); and an advertisement posting unit (*rendering system 24* para. [0032]). For claims 7 and 8, *a set of billing log parameters* (para. [0039]) reads on a base cost calculation table.
5. Applicant argues (pp. 6-7) that ILCISIN does not teach calculating the cost of the advertisement in consideration of the geographical factor. That is taught at para. [0009], which was inadvertently omitted in the last rejection. The citation has been added to para. 4 above.
6. The reference also teaches: claims 2, 3 and 15-17 at the citations given above and at para. [0047] and [0055]. For claims 3 and 17, the user's geographical location and cell phone number read on "user information".

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
8. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

12. **AFTER FINAL PRACTICE** – Consistent with MPEP § 706.07(f) and 713.09, prosecution generally ends with the final rejection. Examiner will grant an interview after final only when applicant presents compelling evidence that “disposal or clarification for appeal may be accomplished with only nominal further consideration” (MPEP § 713.09). The burden is on

Art Unit: 3622

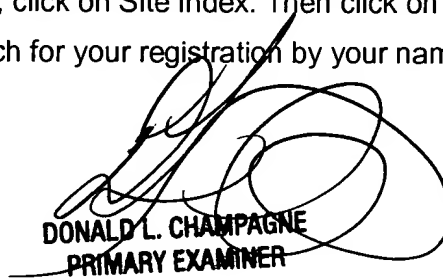

applicant to demonstrate this requirement, preferably in no more than 25 words.

Amendments are entered after final only when the amendments will clearly simplify issues, or put the case into condition for allowance, clearly and without additional search or more than nominal consideration.

13. Applicant may have after final arguments considered and amendments entered by filing an RCE.

14. **ABANDONMENT** – If examiner cannot by telephone verify applicant's intent to continue prosecution, the application is subject to abandonment six months after mailing of the last Office action.
